

## No room for new investments?

Due to the mobile nature of our system we can offer several interesting financing possibilities:

- **Leasing**
- **Rental** (includes service and maintenance)

The installation of active fire protection need not make a significant dent in an already strained budget or bind up unnecessary capital bindings. Q-Fog is pleased to offer financing solutions, through our cooperation with Swedbank Finans, in the same manner as office equipment, vehicles and similar objects. These solutions can be tailored to fit the customers needs and wishes.

Improving safety with the aid of Q-Fog products does not have to be an economical liability.

Contact your Q1 dealer for more information and suggestions on how to make these financing solutions work for you.
